

Board Governance Workshop

Please join this two-part, practical session focused on governance. Please bring a copy of your current bylaws with you – as well as a red pen – this is an interactive session intended to provide you with the resources to leave with updated governance documents to present to your board.

Part One: Roles, Responsibilities and Best Practices

This session will explore both the legal responsibilities of Boards and the more nuanced best practices related to terms, job descriptions, communication and the role of the Board of Directors versus the role of staff (i.e. who is “in charge” of what).

Part Two: Creating Amazing Bylaws to Transform Your Organization

Bring a copy of your bylaws to this session and be prepared to review your governing documents. We will have plenty of time for Q&A and the session will be filled with best practices on creating/updating a governance document that helps advance your organization’s strategic plan and mission.
